# PSU bank stocks on budget run

**P**UBLIC sector banks surged for the second day on Budget announcements, seen as positive for the sector. Market layers believe the fiscal prudence shown in the budget would lead to lower yield and resist inflationary pressures. They are also relieved that no farm loan waiver was proposed in the budget. The proposal for Rs 10,000-crore capital infusion, in PSU banks, though inadequate, is also appreciated. Analysts say the government will be a major spender in the economy in the next fiscal, which will, in turn, help public sector banks' financials going forward.

PSU Bank stocks gained on European rival Eurocent in order to ease some of those fears. London hosts roughly 1.3 trillion euros of euro clearing transactions every year, a status that is now in danger with the British vote to leave the EU.

The planned merger, which has hit turbulence after last year's shock decision by Britain to quit the

in order to ease some of those fears.

and not NPA the bank registered in this quarter. Our NPAs have been lesser in the industry for the last 8 to 9 quarters," its executive director BS Rama Rao said in Bengaluru.

Giving other reasons for the bank's good perform-

tains of the result, Rao said the bank's total income rose to Rs 3,714.37 crore in the quarter under review from Rs 3,237.02 crore in the same period a year ago.

Shares of Vijaya Bank rose 19.78 per cent to Rs 63.90 on the BSE.

## et important for jewellery retailers: WGC

ailers realign their businesses," said PR Somasundaram, managing director, World Gold Council, India.

Further, the study finds that around 40-50 per cent of gold jewellery, bars and coins bought in India is for weddings. Although there are no official figures for the number of weddings, it is likely to be between 8 million and 10 million per annum. This number is expected to rise as India has an extremely young population, many of whom are yet to be married. According to the CIA Factbook, 28 per cent of the population is under the age of 14, while 8 per cent are between 14 and 24. That translates to

more than 500 million people under the age of 25.

Retailers also should not dismiss the rural market, finds the study. Around two-third of India's gold demand is concentrated in rural areas — a fact that is largely a reflection of India's demographics. According to the World Bank, in 2015, 67 per cent of India's population lived in rural areas. While the whole of India has a strong affinity with gold, it is amplified in rural areas. Levels of ownership when compared to the income levels are also significantly higher in rural India.

Moreover, rural consumers are far more likely to

purchase gold in the next 12 months than their urban counterparts. In the past 12 months, plain gold jewellery

accounted for 88 per cent of purchases in rural India.
